The cost for the Defense Base Act Worker's Compensation Insurance is currently \$19.96 per \$100 of the total overseas payroll, amounting to about \$7.00 for all hours worked overseas. As this contract will dictate overseas travel, costs for these charges will be identified for the Insurance in contractor's proposal and the government will include it in the total for each affected payroll/contractor labor CLIN with a narrative reflecting the actual breakout on each order where overseas payroll will be affected. administrative (G&A) rate of 15.5%. CLIN 0020 represents Subcontracting Support; 0030 represents Materials in Support of Labor; and, 0040 represents Travel in Support of Labor. CLIN 0050 is reserved as a fixed price line for use in any task order occurrence where the total effort, or a significant portion thereof, can be firm-fix-priced before execution of the effort. While these lines do not change from the basic contract, they are indicated here to extend to the out year ordering periods both the labor rates and the negotiated G&A.
